HOW TO CHOOSE YOUR DOOR

01

PICK A DESIGN

Browse the collections and note the model code under the door.

02

CHOOSE GLASS & FINISH

Decorative glass, stain or paint colour, and handle finish.

03

FREE CONSULTATION

We measure your opening and confirm sizes, swing and hardware.

04

BUILT & INSTALLED

Your door is built to your measurements and installed by our team.

MEET THE CRAFTSMAN

THE HANDS BEHIND EVERY DOOR

I TAKE EVERY DOOR PERSONALLY.

OSCAR

OWNER · CRAFTSMAN · DESIGNER

Door Depot started with one person learning the trade from every side. Today, the same person still oversees every door that leaves our shop.

THE STORY SO FAR

2015

Started on the factory floor

Frame prep, assembly, shipping & receiving. Worked 9 to 6, then made sales calls into the evening, learning the business from every side.

2017

Becomes a partner

Finds an existing door company and becomes a partner.

2019

Opens his own shop

Opens his own manufacturing shop, with its own spray & stain booth.

Family

A family business

His father joins the business.

Today

Built in our own Toronto shop

Every door is cut, built, painted and stained in our own Toronto shop, by a small team that's like family.

CUSTOM WORK. YOUR WAY.

MADE TO FIT YOUR HOME. AND YOUR STYLE.

THE LOOK
Steel, fiberglass or solid wood. Modern or traditional, single or double.

THE FINISH
Rich stains, painted colours, woodgrain textures and privacy glass.

THE DETAILS
Wrought-iron glass, multi-point locks and hardware to finish the look.

NEW · AI DOOR BUILDER

SEE YOUR NEW DOOR ON YOUR HOME BEFORE YOU BUY

Upload a photo of your entrance, describe your dream door, and get an AI preview with a preliminary price range.

01 Snap a photo of your entrance

02 Describe the door you want

03 Get your preview and price range

Shown on a 36″ × 80″ slab; glass set 3″ in from the hinge edge. Any slab colour or stain.

SIGNATURE COLLECTION · ONLY AT DOOR DEPOT

MATTE BLACK & WALNUT

Ten original designs pairing a matte black slab with walnut-stained inlays. Built to order — single door with one or two sidelights, optional matching transom. SG 07 to SG 10 continue overleaf.

SG 01

MERIDIAN

Walnut spine with a split diagonal. Our flagship.

SG 02

ECLIPSE

A chevron-cut walnut strip on the hinge side.

SG 03

LEDGER

A fluted walnut band set at handle height.

SG 04

CANTILEVER

Walnut inlay turning along the base of the slab.

SG 05

FAULT LINE

A bold diagonal walnut band across the slab.

SG 06

TWIN ANNEX

Twin walnut strips with a framed panel.

SIGNATURE COLLECTION · ONLY AT DOOR DEPOT

MATTE BLACK & WALNUT, CONTINUED

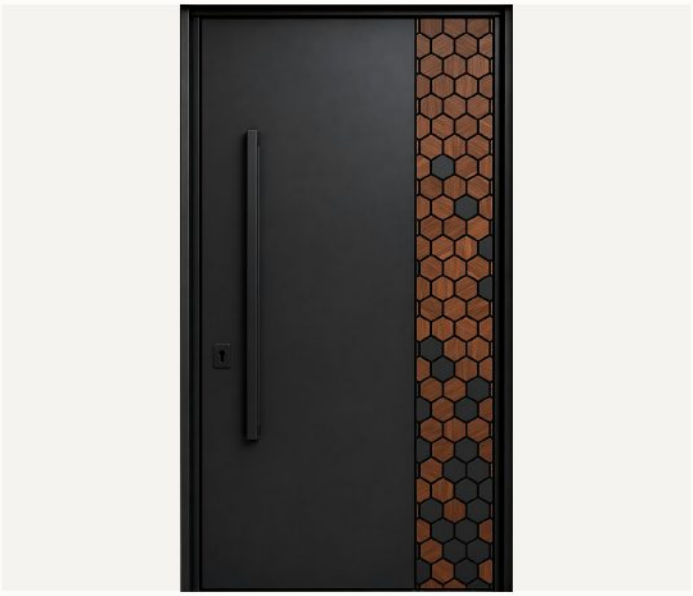

Four carved designs: a walnut strip on the hinge side with an interlocking pattern routed into it. Built to order — single door with one or two sidelights, optional matching transom.

SG 07

TETHER

Interlocking walnut chain links carved down the hinge side.

SG 08

HIVE

A walnut honeycomb that fades into matte black toward the base.

SG 09

LATTICE

Woven walnut bands, over and under, framing black diamonds.

SG 10

HELIX

Two walnut ribbons twisting down a matte black panel.

02
ENTRY DOORS

Fiberglass and steel entry doors in more than 150 designs — from smooth modern slabs to embossed woodgrain panels, full glass and classic steel. Shown with sidelites where available.

FIBERGLASS ENTRY DOORS

OAK GRAIN COLLECTION

Fiberglass doors with a deep, open oak-grain texture that takes stain beautifully — the look of real oak without the upkeep. Widths shown under each model.

GARDEN DOOR COLLECTION

BLINDS BETWEEN THE GLASS

Garden and patio-style entry doors with mini-blinds sealed inside the glass unit — privacy when you want it, full light when you don't, and nothing to dust or clean.

WHY BUILT-IN BLINDS

- Raise, lower and tilt the slats with one discreet slider
- Sealed between two panes of glass — never needs dusting
- Cordless, so it's safe for children and pets
- Reliable and maintenance free
- Contemporary or PVC glass frame

GARDEN DOOR COLLECTION

CLEAR GLASS & VENTING UNIT

Let fresh air in without opening the door. The venting unit slides open like a window, with a built-in screen — ideal for back, side and garage entry doors.

VENTING UNIT

- Moulded polypropylene frame — maintenance free, no yellowing
- Improved watertightness and condensation resistance
- Sliding sash with insect screen
- 22″ × 36″ half-lite size
- All white, or black outside with white inside

ENTRY DOORS

SIZES & OPTIONS

Every door is built to your measured opening. Standard sizes are listed below — we confirm what is available for your chosen model at your free consultation.

DOOR HEIGHTS
6'8" · 7'0" · 8'0"

DOOR WIDTHS
28" · 30" · 32" · 34" · 36" · 42"

SIDELITE WIDTHS
12" · 14" · 16" (model dependent)

CONFIGURATIONS
Single · single + one sidelite · single + two sidelites · double · double + sidelites · transoms

THICKNESS
1-3/4" standard; 2-1/4" available on select oversized doors

FIBERGLASS GRAINS
Oak · Mahogany · Fir · Smooth

BUILT IN

COMPOSITE EDGE
Solid PVC perimeter that resists moisture and rot.

LVL INNER FRAME
Engineered lumber frame with a 1/4" solid steel rail for stability.

FOAM CORE
Polyurethane foam core — around five times the insulation of a wood door.

DOOR SILLS
Thermally broken inswing sills in black or white; heavy-gauge outswing sills.

JAMBS
Vinyl-wrapped or composite, smooth or woodgrain; 4-9/16" or 6-9/16".

HINGES
Regular, heavy-duty and self-closing hinges in matching finishes.

03

CONTEMPORARY GLASS DOORS

European-inspired doors built for Canadian winters. Choose a glazing frame layout, a designer glass, and any door colour.

TWO FRAME STYLES, FIVE LAYOUTS

Every layout is available in a flush **stainless steel frame** (with a 1-5/8″ thermal glass unit) or a sleek **contemporary PVC frame** (1″ glass unit), on 6′8″ or 8′0″ doors.

STAINLESS STEEL FRAME

Made from high-performance 316-grade stainless steel and fitted flush with the door surface for an ultra-modern look.

CONTEMPORARY PVC FRAME

A flat, smooth and sleek frame for a more contemporary, understated look.

DOOR COLOURS SHOWN

Steel Blue · Mushroom · Victory Blue · Military Grey · Hacienda · Cement Grey · Slate · Clay · Diablo · Clotted Cream · Cotswold · Olive Grove · Citrine · Bahia Blue · Anthracite Grey · Black — or any custom colour.

GLAZING LAYOUTS

8X8

Square lites stacked up the door.

Glass shown: Matrix · Kensington · Serenity · Tahoe

22X3.5

Slim horizontal lites for a linear look.

Glass shown: Matrix · Montreal · Satin · Rain

DOOR HARDWARE

MULTI-POINT LOCKING SYSTEM

Every Door Depot entry door can be fitted with a European-engineered multi-point lock — three locking points along the edge of the door instead of one.

01

BUILT TO A HIGHER STANDARD

Premium multi-point locks engineered with European technology, meeting the highest standards for forced-entry resistance, fire safety, weather-tightness and accessibility.

02

LOCKS AS THE DOOR CLOSES

The top and bottom 3/4" (20 mm) latches engage the moment you close the door. Turn the key from outside, or the thumb-turn from inside, a quarter turn and the 1" central deadbolt throws and locks the upper and lower latches — three deadbolts in one motion.

03

EASY TO USE, KEEPS DOORS STRAIGHT

No lifting the handle to lock. Because the top and bottom latches are always engaged, your door stays sealed and protected from warping — a reliable, secure locking system for your entrance.

SIDE DOOR SETS & DEADBOLTS

Narrow side-door sets for sidelite-style and service doors, and tubular deadbolts to match any handleset.

Pair any digital lock with a matching handleset or side door set.

DOOR HARDWARE

TEDEE PRO SMART LOCK

The Tedee PRO turns any of our multipoint handle sets into a keyless door. It fits on the inside of the door over the cylinder — your key still works from outside.

UNLOCK YOUR WAY

- Unlock with your smartphone or smartwatch
- Locks automatically after you leave, unlocks hands-free when you come home
- Unlock remotely — for a delivery or a guest
- Share virtual keys with family, friends and services, with three permission levels
- Full access history of who came and went
- Voice control with Siri, Google Assistant and Alexa; works with Apple Home, Google Home and over 15 smart-home systems

BUILT TO LAST

- One of the smallest smart locks on the market, in silver or black
- Rechargeable battery lasts up to 6–10 months per charge
- Low-battery alert in the app at 15%
- Magnetic charger — charge it on the door and keep using it while it charges
- Multi-level encryption; independently tested and certified secure
- Fits most in-swing doors; out-swing doors need 30 mm or more from frame to cylinder

ADD-ONS

KEYPAD WITH FINGERPRINT

Outdoor keypad — open with a fingerprint or PIN code. No phone, app or key needed. White or black.

INTERNET BRIDGE

Plugs into a wall socket near the door and connects the lock to the internet for remote unlocking and real-time alerts.

PRECISION MECHANISM

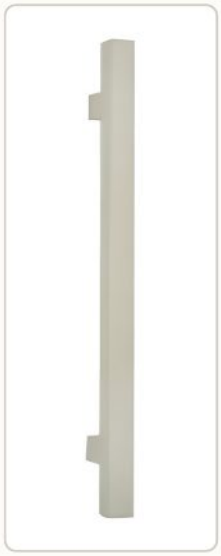

Locksmith-grade gears and motor turn your existing lock smoothly and reliably, every time.

MADE IN EUROPE BY TEDEE

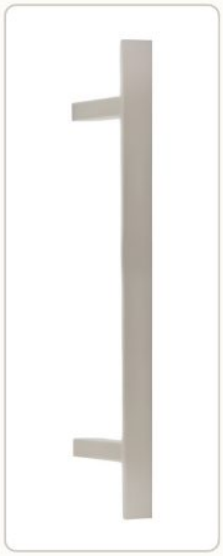

Tedee is a European smart-lock maker headquartered in Warsaw, Poland. Founded in 2017, it grew out of GERDA, a door-hardware manufacturer since 1987. Tedee calls the PRO the smallest, fastest and strongest smart lock of its kind. It is built from recyclable aluminium, and Tedee is an iF Design Award winner. Learn more at tedee.com.

DOOR PULLS

Pull handles for modern and traditional entries. Lengths shown with centre-to-centre (cc) mounting; custom lengths available on many models.

08
WINDOWS

Energy-efficient vinyl windows, fusion welded and built to your exact sizes — backed by a lifetime warranty.

WINDOW STYLES

CASEMENT

Opens a full 90° for a broad view and great airflow. Optional corner drive for extra security.

AWNING

Hinged at the top. Stand alone or combine with fixed windows.

PICTURE

Fixed glass in custom shapes for maximum light.

FIXED CASEMENT

Non-opening, for a panoramic run of glass.

SINGLE SLIDER

Practical and affordable; tilt-in or lift-out sash.

SINGLE HUNG

Classic look; spiral balance; half screen.

END VENT SLIDER

For openings wider than 72″; sashes at both ends.

DOUBLE SLIDER

Both sashes glide for excellent ventilation.

DOUBLE HUNG

Both sashes tilt in for cleaning from inside.

SPECIALTY SHAPES

Half-rounds, arches, octagons and custom shapes.

GLASS, GRIDS & FINISHES

CLEAR GLASS
Double-pane insulated glass for basic noise and draft protection.

LOW-E 180
High solar gain — lets winter sun warm your home. U-factor 0.26, 77% visible light.

LOW-E 272
Year-round performer for any climate. U-factor 0.25, SHGC 0.40, 70% visible light.

LOW-E 366
Low solar gain — best for sunny, south and west-facing rooms.

TRIPLE GLASS
The most energy efficient option, with argon or krypton gas fill.

WARM-EDGE SPACER
No-metal foam spacer that resists condensation and lowers energy costs.

GRIDS
Internal grids between the glass or simulated divided lites.

PAINT & STAIN
Painted frames (four to six coats, 10-year warranty) or a three-stage wood stain.

INTERIOR TRIM
Classic or contemporary rosettes, stepcasting, and wood-stain packages.

Brickmould in 5/8″, 1-1/4″ or 2″; PVC or wood jamb extensions to suit any wall depth.

09

GARAGE DOORS

Insulated steel garage doors — R-18, 2″ thick — in four panel styles and a full range of colours.

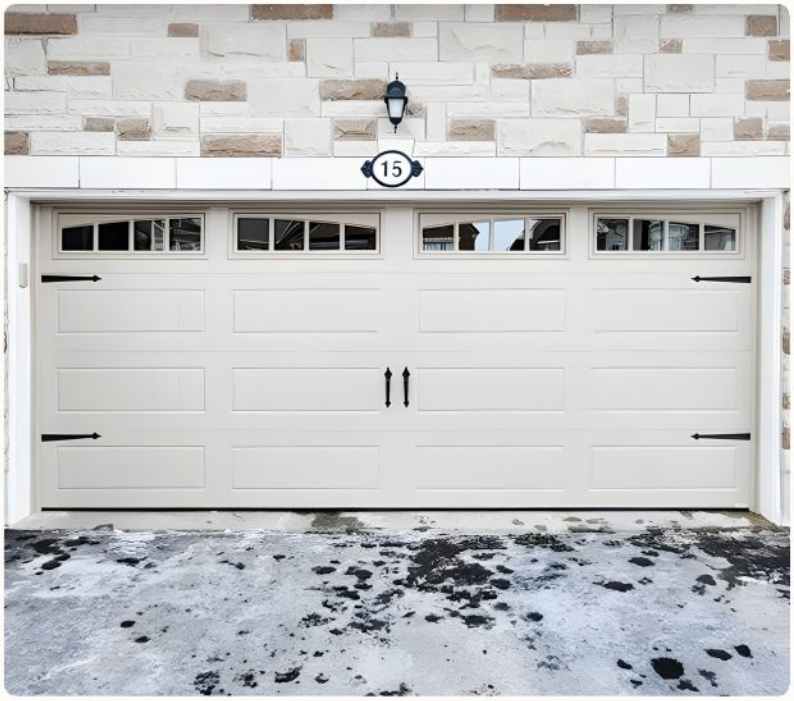

PANEL STYLES

LONG RANCH

Elongated rectangular panels across the width of the door. A modern twist on a classic design.

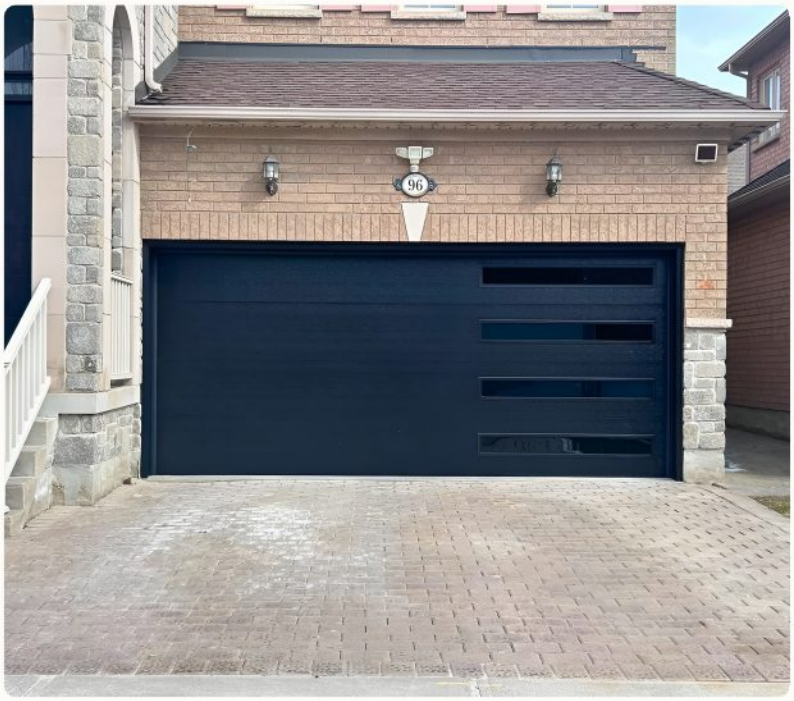

CARRIAGE HOUSE

Evenly spaced vertical grooves for texture and depth. Decorative hardware available.

PANEL STYLES

FLUSH

A smooth, flat surface with no raised or recessed panels — sleek and minimalist.

RIBBED

Evenly spaced narrow ribs for a clean, linear look. Suits modern homes and commercial settings.

COLOURS, WINDOWS & SIZES

COLOURS
